E-commerce Multi-Vendor Marketplace Website (Next.js + TailwindCSS + Go backend)

- Developed a scalable **multi-vendor e-commerce platform** with role-based access for **Super Admin, Vendor, and User**.
 - Implemented a **secure authentication and authorization system** with JWT to manage vendors and customers efficiently.
 - Designed a **clean, user-friendly UI** using **Next.js and TailwindCSS**, ensuring responsive and modern design.
 - Built a **robust backend** with **Go (Gin framework)** and **PostgreSQL**, applying relational database modeling for vendors, products, and users.
 - Integrated **RBAC architecture and best practices**, ensuring maintainability, performance, and smooth client-server communication.
